

Delegation Interviewed Premier Brownlee on Unemployment Plight

Informed That Proposal Under Consideration by Railway Company to More Evenly Distribute Orders for Their Own Use.

Dave Gillespie, secretary of the local branch of the Mine Workers Union of Canada, on his return from Edmonton, where he took part in a conference with Premier J. E. Brownlee regarding unemployment conditions and the need for relief in the mining areas, states that a sympathetic hearing was accorded by the Premier, and the latter stated he had recently met Grant Hall, vice-president of the C. P. R., and D. C. Coleman, general manager of western lines.

Frank Wheatley, president of the Mine Workers Union of Canada, was also a member of the delegation interviewing the premier, and placed before him details of existing conditions in the Crow's Nest Pass, and the necessity for relief on the part of the provincial government.

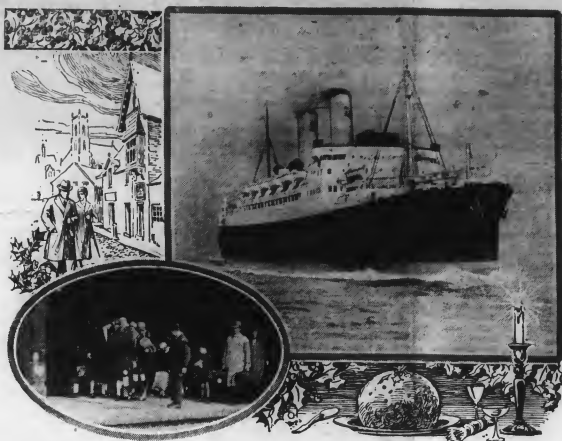

Premier Brownlee informed the delegation of the result of an interview with railway executives, in which they had arranged for a subsequent conference when the proposal for more even distribution of coal orders from the pass would be considered, as the railway officials were impressed with the necessity of a longer period of employment being given to the resident miners, thereby eliminating to some extent the bringing in of a large number of transient workers during the rush season which occurs under the present system of placing coal orders during the spring and summer months.

In the meantime relief cases are being dealt with by town officials, the miners union and the provincial government, though there is a suggestion that this work be co-ordinated under one committee to prevent overlapping and possible duplication.

Generous Support by West Canadian Collieries and Staff

Blairmore, Nov. 21.—Mine workers of West Canadian Collieries were cheered to day by the announcement that the company had given a donation of \$1,000. J. Charbonnier, vice president, his personal donation of \$200, and each al-

Home for Christmas

Mulled ale, roasted chestnuts, real English plum pudding, Tom Smith's crackers, the 'waits', the piping of the young carol singers, the joyous Christmas peal of the 'Bells of St. Martin's', the cozy atmosphere of the homey loggery of England on a slightly frosty Christmas morning—and the myriad other recollections of Dickens' conception of Christmas at home are the beacons that guide many Britishers homeward in late November and early December.

From prairie farmstead, British Columbia fruit farms, the peach orchards of the Niagara Peninsula, the apple districts of Northumberland and Durham, and from the lovely country of Evangeline a steady

stream heads towards Saint John, N.B. whence the Christmas ships sail.

This year five Canadian Pacific ships have been detailed for the Christmas movement—"Minnedosa" November 26, "Duchess of Athol" Dec. 6, "Montcalm" Dec. 12, "Duchess of Richmond" Dec. 14, and "Duchess of York" Dec. 18th. The last four sail from Saint John, but the "Minnedosa" as usual, closes the Montreal season.

A large number of Canadians from the British Isles and European countries are planning on travelling to their former homes for Christmas, and already the Canadian Pacific is arranging special train services from inland points to the Christmas ships.

Request Is Made For Lower Rate on Coal Orders

Delegation From Crow's Nest Pass Waits on Cabinet Ministers. Special Freight Rate for Shipments East of Sask. Asked.

CALGARY.—Headed by G. Kellock, vice president McGillivray Creek Coal & Coke Co. Ltd. a delegation representing mine operators of the Crow's Nest Pass district waited on the Hon. Chas. Stewart, Minister of the Interior, and Hon. J. L. Ralston, Minister of National Defence, at the Palliser hotel on Tuesday evening, to emphasize the advantages to the Dominion as a whole by the extension of the markets in Canada for Canadian coal. A request was made that a reduction of freight of a cent per ton mile be placed on all bituminous coal shipped out of Alberta and sold in the area east of the Manitoba-Saskatchewan boundary.

After listening carefully to all the delegation had to say, assurance was given by the government representatives that the matter would receive careful consideration.

Arising out of a question by Colonel Ralston, Mr. Kellock stated of eight coal mines he knew the average production was from 35,000 to 40,000 tons per month.

The resolution presented to the government representatives was in the following terms:

1. Whereas the Dominion Government recognizes the advantages to the Dominion of Canada as a whole by an extension of the markets in Canada for Canadian coal;
2. Whereas this recognition is now being made in a practical way by a subvention of freight rates on Nova Scotia coal to markets in Ontario and Quebec and by a subvention of freight rates on Alberta domestic coal to Ontario markets;
3. Whereas Alberta bituminous coal is not receiving such subvention or assistance;

4. Whereas the bituminous coal mining industry in Alberta is in a very serious plight because of the lack of markets, which naturally is causing a great deal of distress among the employees connected with

Curlers!

All who intend to join in the great winter pastime should give their names to W. L. Rippon, Secretary, Bank of Commerce, forthwith, to enable rinks to be listed.

Retail Merchants Re-Organize in Pass Towns

The re-organized Retail Merchants Association of the Crow's Nest Pass at a meeting held at Blairmore elected the following officers: F. M. Thompson, president; John Kerr, (Passburg) vice-president; Walter Scott, secretary-treasurer; G. Cruickshank, of Hillcrest; John Rushton, Coleman, and J. Smith, Bellevue, executive committee. Regular meetings will be held on the first Wednesday of the month.

With the acute situation and the necessity of curtailing credit in the stores, the merchants were prompted to re-organize so that concerted action might be agreed on in the present situation.

Enterprising Tennis Club

The tennis courts have been improved by lengthening the two lower courts, and the building of a stone wall across the north end, which gives a neat appearance. Next year the annual tournament of the Crow's Nest Pass Lawn Tennis Association will be held here, and the work has been done in preparation for the event and also for the benefit of local players.

In Memoriam

IN LOVING MEMORY of our dear husband and father, Robert Fairfull, who was killed in the McGillivray Mine explosion, Nov. 23, 1926.
To Memory ever dear.
Inserted by his Widow and Daughter.

IN LOVING MEMORY of our dear son and brother, George Johnston, who was killed in the McGillivray Mine explosion on Nov. 23, 1926.

We mourn for him in silence.
We make no outward show.
For the heart that mourns silently,
Mourns silently and low.
Inserted by his loving Mother and Father, Sisters and Brothers.

IN LOVING MEMORY of a dear son and brother, "Tom" Young, who was killed in the McGillivray Mine explosion, at Coleman, Nov. 23, 1926.

"Our fondest hope will ever linger,
Round the spot where he is laid."
Inserted by his loving Father and Mother, and Sisters.

IN LOVING MEMORY of William White, killed in the McGillivray Mine explosion, Nov. 23, 1926.

Time passes but fond memories remain.
Inserted by M. A. Wilson and Son, Sydney.

Children Will

Hold Bazaar Sat.

Junior W. A. Invite People to the Parish Hall on Saturday From 3 to 6 p.m.

The girls of St. Alban's Junior W. A. will hold a bazaar on Saturday afternoon in the parish hall. This is the annual effort on the part of the Juniors to raise funds for church work, and the public are cordially invited to attend from 3 to 6 p.m.

Stallholders are as follows: Fancy Work Table, Miss B. Dunlop and Miss Hole; Home Cooking Table, Violet Wilson and Winnie Phillips; Novelty Table, Wilma Halliwell and Nora McLeod; Candy Table, Prue Horden and Doris Griffiths; Tea Table, Annie Griffiths, Kathleen Hoyle, Mahle Snood, Anna Booth and Audrey Halliwell.

Miss Myfanwy Griffiths will be in charge of bed spread and cushion top to be drawn for at 6:40 p.m. These articles can be seen at Rush-ton Store until Saturday.

Sale and tea commences at 3:00 p.m.

Temperature Takes Drop

22 below was the official record by the local meteorologist, Harry Clark, during last night. When the wind veered from north to west after daybreak, the mercury quickly rose to ten above zero. Train 67 was 1½ hours late, arriving at 10 a.m.

Mrs. M. E. Graham returned on Tuesday night from Nelson, B. C., where she has been attending her father, Mr. Maltby, who is showing a slight improvement in his very serious illness. Mr. Graham is maintaining there for the present.

'Fresh from the gardens'

This Better Age

The work of a clever cartoonist has for some time past been syndicated to newspapers in America, under the general title "So This Is Progress," wherein he depicts by way of contrast conditions of fifty or more years ago with those of today, as, for example, a party of present-day tourists in a high powered motor car speeding at sixty miles an hour along a highway on which at every vantage point unsightly billboards invite you to chew this gum, smoke that cigar, or use such and such a soap. In contrast he presents the restfulness and beauty of a tramp through the woods, and by brooks, and rivers rambling through the countryside. The work of this cartoonist leads one to wonder sometimes whether the vaunted progress of this age of frenzied speed, amazing machinery, industrialized mass production, insane speculation is, after all, an advance upon the more leisurely life and enjoyment of the last century.

Such a picture is, however, one-sided, inasmuch as while it points out drawbacks of today, it fails to visualize the great achievements and gains to humanity as a whole, and already there is an awakening public opinion to the need for the preservation of beauty and leisure, and emphasis is laid on the fact that these need not necessarily be lost in order to make advancement in other directions.

Recently another artist presented two companion pictures in a single drawing which he labelled "This Is Progress." One picture was a reproduction of the famous painting, "The Doctor," presenting the family physician by the bedside of a dying child in a workman's humble cottage, intently watching the child but apparently powerless to stay the ravages of the disease which was slowly taking the life of the child before the eyes of the agonized parents. The companion picture revealed the medical scientist of today at work in his laboratory with his scientific instruments locating and studying those deadly germs and bacilli which, it is now recognized, are the cause of disease. Thus is war being waged not on disease after it claims its victim, but on the causes of disease. This is progress, and a truer, because a more lasting picture of the achievements of the twentieth century.

Despite all the noise, the killing pace, even the ugliness of this mechanized age, with its drawbacks in the merging of the individual artisan into the cogs of a huge industrial machine, and the increasing worship of the almighty dollar, the standard of living is rising higher and higher, and beauty lost in one way is found and multiplied in countless other ways. The average workman in our cities and manufacturing towns is now better paid, better dressed, better housed, better fed, and working shorter hours under more sanitary conditions, has more time for leisure and recreation than in any previous period in the world's history. His children are enjoying advantages in education and opportunities in life he never had in his youth.

The riches of the world's best literature, formerly reserved for the favored few, are available at low cost through the modern printing press for every home. The beauties of the world's finest music are no longer reserved for the rich and the gifted, but are broadcast by radio to be captured in millions of homes, no matter how isolated they may be. In the last century the man with a horse and buggy for pleasure or business belonged to the select; today the man without a motor car is the exception, not the rule. The telephone is on instant call in the humblest home, even the pioneer settler's sod shack, and the radio is in the mining prospector's cabin.

Even the toil and drudgery of the farm are disappearing with the advent of power machinery and electricity. Soon, even in this last Great West, high power transmission lines will carry electricity into the farm home to bake and cook, chop feed, operate the churn, pump water, and perform numerous other tasks. Even in advance of this, small gasoline engines now do the work on many farms. The telephone, the radio, the motor car and better roads, have already well-nigh annihilated the loneliness of farm life, while educational facilities and medical services are no longer remote.

So, notwithstanding certain drawbacks and losses, the world advances, progress is real and altogether worthwhile, life becomes richer and fuller, mankind rises higher and higher as God and nature designed that he should.

Coins Within a Coin

Quaint Old Silver Pieces Were Made To Fool Highwaymen

I was shown the other day a curious coin which was given to a friend of mine by a collector. It is an Austrian silver piece, about the size of a crown, dated 1614, and it had been in my friend's possession some time before it was discovered that it was a counterfeit. Investigation showed that it had been made into a box of which the lid screwed down, and inside were two large pieces of King James I. I am told that such silver pieces were used as a means of carrying a small supply of gold, the idea being that many highwaymen only troubled to take gold from their victims, leaving the more bulky silver behind.

Japan is said to have had no written language until about 236 A.D.

KEEP TRAFFIC MOVING

Pompeii never had traffic problems. In the human system, as in modern cities, the great need is to keep the traffic moving. A slight obstruction may cause very serious consequences. The road to health in the human body--the intestine--is a long, thin, tube. Think how easy it is for this tube to become clogged. Think how essential it is to keep it healthy and active. You cannot ill by saying "I cannot go because I have a sick headache." You cannot plead indigestion or biliousness or constipation. It simply isn't true. You cannot confess that you are a victim of self poisoning from half digested food lying in the intestines, decaying and generating poisons which bedevil the eye, blotch the skin and stupefy the brain. Don't put off or delay. Try what a little friendly aid will do. CARTER'S LITTLE LIVER PILLS. Red Packages all druggists 25 cents.

Ship Foxes To Sweden

Large Shipment Leaves Western Canada For Swedish Port

One of the largest shipments of silver and black foxes to be exported from Western Canada left Winnipeg recently by Canadian National Express for Halifax, where they will be placed on board the S.S. Kungsholm, which sails for Gothenburg, Sweden. Valued at close to \$370,000, 120 pedigreed silver and black foxes were crated and carefully packed in two specially-equipped Canadian National express cars for their long journey to the seaboard. One hundred and twenty-five of the foxes were supplied by the B.C. Crompton ranch at Quilchena, British Columbia, while the remainder of the shipment are from the All Star Ranch and the Winnipeg Fox Company, both of which Winnipeg. Sweden has been one of the largest importers of Canadian-bred silver and black foxes, but in the past the animals have been secured largely in Prince Edward Island and other eastern ranches. During the journey, the foxes will be under the care of M. Holm and Nils Kimrich, partners of the Swedish importing firm.

On the completion of the new Canadian National Railways hotel at Halifax, passengers will be able to leave their trains, enter the hotel and board a trans-Atlantic steamer without once having to go out from under a roof. Iron was smelted to make shoes and sickles as far back as 1200 B.C.

In the first second of its fall, a body falls 16 feet.

Minard's Liniment relieves stiffness.

International Amity

Ramsay MacDonald Says That Peace Plan Cannot Fail

The unanimity of the British people for international amity will prevent defeat of the naval disarmament proposals. Premier J. Ramsay MacDonald said at Leicester, England, in receiving the freedom of the city. Referring to his American trip, MacDonald said:

"The journey was made successful, not by anything I did, but what the people of the country did. There are no parties in Britain. It is united, both in prayers and hopes. I feel that such tremendous moral backing cannot possibly be defeated.

"I was on a mission of good will--a mission not only to promote active good will between the United States and Britain, but I hope and pray, a good will that will spread healing and inspiring arms around the earth."

HOUSEHOLD CARES

Fall Heavily On The Woman Who Is Run Down--Thin Blood the Trouble

To the woman who has her housework to do and her family to attend to, illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she may be breathless at the least exertion, she has little relief for food, and always feels tired and nervous. The trouble is poor blood--thin, watery blood, and she badly needs the health help that only Dr. Williams' Pink Pills can give. The rich, red blood which comes through the use of these pills promptly restores anemic women to good health. Among the thousands who have found new health through the use of this medicine is Mrs. John W. Macdonald, Cardigan, P.E.I., who says: "I can most strongly recommend Dr. Williams' Pink Pills. It was so run down in health that I was unable to do my household work. My husband thought I would never be better, as I had tried different kinds of medicine, with no benefit whatever. I was advised to try Dr. Williams' Pink Pills, which I did, and to my joy I found they were just the thing I needed. I took six boxes of the pills and found myself restored to my old-time good health."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now; or you can get the pills by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Attract Tourists

Yokohama plans an effort to compete with Shanghai for the title of "Paris of the Orient." As a first step in the scheme to attract more tourists to the Japanese port city, Mayor C. Ariyoshi proposes to construct a large theatre and cabaret. Other night life attractions would be added. Tourists are now prone to stop in Shanghai, which is famed over the world for the gaiety of its cafes and dance halls, which contribute greatly to the wealth of that city.

No matter how deep-rooted the corn may be, it must yield to Holway's Corn Remover if used as directed.

Women of the Samoan Islands regard a shiny face as a mark of beauty.

Two hundred years ago, occupants of this center of the Hudson's Bay Company's activities carved their names on the rock walls. Now with the steady increase of visitors to Fort Churchill, the walls at the old Fort Churchill are being marked up by new names despite the desire of the Department of the Interior to preserve the ruins as the pioneers of the north left them.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same benefit."

Railway Earnings Decline

A Decrease In Gross Revenues Shown For August

Canadian railways showed a decrease in gross revenues for August in comparison with 1928 revenues of \$2,815,117, and, with an increase in operating expenses of \$101,704, net operating revenues were reduced by \$3,658,892.

The reduction in freight traffic was in long haul freight, principally grain. The tons of freight showed an increase of 2.2 per cent, but the shorter haul of 212.9 miles, as against an average of 202.5 miles in August, 1928, reduced the ton miles by 2.9 per cent, and freight revenues were less by \$2,173,551, or 6.8 per cent.

Passenger traffic was lighter than in 1928 by 21.3 per cent, and passenger revenues decreased by \$980,131, or 10.1 per cent. But passenger train miles were reduced only 2.7 per cent, and passenger train car miles were reduced by 6.9 per cent. The average freight haul decreased by 11.2 miles and the average passenger journey decreased by 17 miles.

For the eight months, January-August, gross revenues amounted to \$34,744,618 as against \$33,777,933 in 1928, but net operating revenues were less than in 1928 by \$59,995.

Aeroplane Development

Army Transport Plane Operated Without a Pilot

Development of the gyroscope for use in keeping aeroplanes on their true courses without directional guidance has progressed to such a point that planes have been operated for long distances without the guiding hand of a pilot at the stick. Wright field army engineers announced at Dayton, Ohio.

The latest and most successful of these experiments was conducted recently, when an army transport plane was flown from Wright field to Detroit carrying five passengers and with no pilot in the cockpit.

Persian Bain the creator and preserver of beautiful complexions. Tonic in effect and wonderfully stimulating. Safeguards and beautifies the most delicately-textured skins. Cools and relieves skin irritations caused by weather conditions. Magical in results. A little gentle rubbing and a youthful freshness and daintiness is instantly created. Invaluable for softening the hands and making them flawlessly white. Truly the perfect toilet requisite for the woman who cares.

Will Preserve Old Fort

Changes At Churchill May Necessitate Guard On Fort Prince Of Wales

That it might prove necessary to place a guard over the ruins of the two-century-old Fort Prince of Wales at Churchill, was the statement made by Hon. Charles Dunning, Canadian Minister of Railways, on his return from a trip of inspection over the lines of the recently constructed Hudson Bay Railway to Canada's Arctic port.

Two hundred years ago, occupants of this center of the Hudson's Bay Company's activities carved their names on the rock walls. Now with the steady increase of visitors to Fort Churchill, the walls at the old Fort Churchill are being marked up by new names despite the desire of the Department of the Interior to preserve the ruins as the pioneers of the north left them.

"I imagine the department will put guards over the fort," Mr. Dunning said. "It is perhaps the most interesting relic left to us of early Canadian history, a history not predated that of any city on the prairies or in middle United States. Churchill was Churchill and the capital of the western half of the continent from the Arctic Sea to Oregon before there was any Selkirk, or Fort Garry, or Regina. Fort Churchill was a monument to the men who built it as a link with the 18th century in this country and must be preserved."

Most people believe in law and order as long as they can lay down the law and give the orders.

When things do not come your way it is a sign you ought to be going after them.

Stop falling hair with Minard's Liniment.

Ambassador Bridge

Now In Operation

Longest Suspension Bridge In World Between Canada and United States

A great new link between Canada and the United States, the Ambassador Bridge, has come into operation. The ever-growing traffic between the two countries brings into being the longest suspension bridge in the world--the Ambassador is 1,850 feet long between the main towers. The centre span looms 152 feet above the waters of the Detroit River and at the piers is 135 feet above the water. The total length of the bridge from the terminal in Sandwich, Ontario to the terminal in Detroit is nearly two miles.

The roadway of the bridge is 47 feet wide, providing five lanes of traffic. These lanes for traffic will be used in either direction as circumstances demand. Main towers of the bridge are 365 feet in height and of steel construction.

The magnitude of the structure is indicated by the quantities of different kinds of material used. Structural steel and cable wire weight approximately 24,000 tons; concrete masonry measures 25,000 cubic feet, cement used totalled 40,000 barrels. The roadway pavement is 60,000 square yards, sidewalk 8,000 square yards. Two million rivets were driven during the progress of construction of the steel portions of the bridge.

Proposals for some direct connection across the Detroit River have been made for nearly fifty years. Work was started on the Canadian end in June, 1927, and the American end a month previous.

Acids in Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, heartburn, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The defective, stinging, irritating, digestion is delayed and food, instead of the nourishment which every stomach sufferer knows so well.

Artificial digestants are not needed in cases of this kind, and may do real harm. Try taking a little of the famous, tried, and true, Bismarck's Stomach and Bowel Regulator, and take a little in water right after your dinner. This secret of the stomach, prevents the formation of excess acid and there is no gas, no heartburn, no indigestion, no nausea, no pain, no trouble. Bismarck's is harmless to the stomach, and is the most efficient form of mucus for stomach ailments. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Records From Slot Machines

Those who enjoy hearing their voices, may do so by dropping a coin in a slot machine, which is to appear in London streets. It is operated on the phonograph principle. The voice of the machine is registered on a thin disc of red metal alloy, of secret composition, which is delivered five seconds after the speaking is finished. It can be used on a phonograph, and with any direct means. The record is guaranteed to be permanent.

Children's COUGHS
Mothers! Give your children a few Peps tablets to suck every day. Breathing the agreeable medicinal fumes given off by Peps is like breathing invigorating pine forest air. Peps soothes the throat and delicate air tubes, strengthens the chest and keeps coughs, colds and bronchitis troubles at bay. 25c. box.

The Breathable Tablet

A Cosmopolitan College

Ontario Agricultural College, At Guelph, Has Students From Many Climes

One of the cosmopolitan educational institutions of the world is the Ontario Agricultural College, located at Guelph, Ont. Registration for the present term includes students from Trinidad, Rhodesia, Bermuda, Mexico, South Africa, Holland, Germany, Peru, Ukraine, Japan, Norway, United States, England, Wales, Scotland, Ireland, Czechoslovakia, as well as many from Canada.

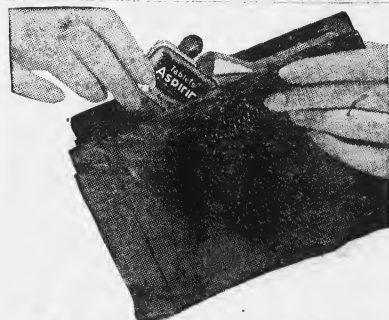

The Ontario Agricultural College has a world-wide reputation as a producer, not only of practical farmers, but of instructors in agriculture. Many O.A.C. graduates are found on the staffs of agricultural colleges in the United States.

Classifying the Others

Those who go to church in Canada, according to Dominion statistics are Roman Catholics, Presbyterians, Methodists, Anglicans, Adventists, Baptists, Brethren, Buddhists, Christians, Christian Scientists, Confucians, Congregationalists, Disciples of Christ, Doukhobors, Evangelists, Friends, Greek Catholics, Jews, Lutherans, Mennonites, Mormons, Plymouth Brethren, Salvationists and Unitarians. The rest, we presume, go golfing.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

A new Danish process for drying fruit juices, milk, chocolate, rubber latex, and other liquids is said to work rapidly at a low temperature and to cause no damage to the dried products.

Needless Pain!

People are often too patient with pain. Suffering when there is no need to suffer. Shopping with a head that throbs. Working though they ache all over. And Aspirin would bring them immediate relief!

The best to take to ease Aspirin is the very moment you first feel the pain. Why postpone relief until the pain has reached its height? Why hesitate to take anything so harmless? Read the proven directions for checking colds, easing a sore throat, relieving headaches and the pains of neuralgia, neuritis, rheumatism, etc. You can always count on its quick comfort. But if pain is of frequent recurrence see a doctor as to its cause.

ASPIRIN
TRADE MARK REG.

WANT COPY OF PEACE PACT IN EVERY SCHOOL

Winnipeg.—Proposals to have a copy of the Brand-Kellogg peace pact placed in every school in the Dominion, which have been endorsed by Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada, are meeting with the approval of educationists in the western provinces and will be considered by provincial governments as soon as formal notification of the project is received.

Under the plan, the federal government would furnish suitable copies of the peace pact for use in the schools, but as school administration is a provincial matter, the provincial governments would have to undertake the placing of the copies in the schools.

"I see no difficulty in carrying out such a plan," stated Hon. R. A. Hoey, Minister of Education for Manitoba, to the Canadian Press. "The government of Manitoba would be glad to co-operate, but it is a matter for the local school boards to decide."

Mr. Hoey said intimation would be sent to the various school boards in the province by his department, of copies being available and he thought most schools would avail themselves of the opportunity to secure a copy of the pact.

The British Columbia government will co-operate in the plan, it has been intimated by the minister of education for the coast province.

Speaking at Ocean Falls, B.C., recently, where he unveiled a copy of the pact in the United Church, Mr. King said he would like to see a copy of the pact in all churches as well as schools.

Alberta Town Burned

Property Destroyed By Flames But No Lives Lost

Edmonton.—Fanned by a driving wind which sprang up suddenly, a bush fire swept over and destroyed the thriving little town of Thorild at an estimated loss of \$150,000. No lives were lost but several citizens suffered burns.

Practically all of the town's 200 inhabitants are homeless, many without clothing and all without food. The entire business section and all residences were burned. Thorild is 53 miles north of Edmonton on the A. and G. W. line.

Awarded Big Contract

Regina Firm Will Erect Calgary's New Post Office

Ottawa.—The construction firm of Smith Brothers and Wilson, of Regina, Sask., have been awarded the contract for the erection of the new postoffice at Calgary, Alta., which is expected to cost approximately \$2,600,000 when completely equipped. The Regina firm won the contract with a tender of \$1,296,000. The postoffice will be eight stories in height, and will be given over wholly to the operations of the Canada postal services.

Universal Suffrage For Turkey

Angora, Turkey.—President Mustafa Kemal Pasha, who has taught his people how to write in Latin characters and adopt western manners, now believes they should all have the right to vote. His government submitted a bill in the National Assembly, which if passed, will make universal direct suffrage operate in the next legislative elections.

Storm Destroys Fishing Nets

London, Eng.—Six hundred vessels of the Scottish fishing fleet lost 31,000 fishing nets in a gale off the east coast, it was revealed by Right Hon. Wm. Adamson, secretary of state for Scotland. To replace the nets would cost \$750,000 and most of them were not insured. There will be a marked shortage of fish for some time.

V.C.'s Guests At Windsor

London, Eng.—The Canadian warriors of the Victoria Cross and a few others from overseas had an interesting day at Windsor, as guests of the British Empire Service League. Windsor Castle and most of its splendours were freely open for their inspection.

Failed To Open Safe

New York.—Eight armed men held up the officer of the day and twenty policemen at the navy base in Brooklyn and after an unsuccessful attempt to open a safe containing \$86,000, escaped.

Decline In Grain Receipts

Vancouver, Montreal and Quebec Ports Show Great Reduction

Ottawa.—A decline of 115,731,253 bushels of grain is indicated in the receipts at the ports of Vancouver, Montreal and Quebec for the current year ending Nov. 6, compared with the figures for the corresponding period last year. At the same time deliveries from these ports dropped 102,556,627 bushels.

Total receipts at these Canadian ports amounted this year to 155,286,157 bushels, compared with 287,997,410 bushels for the same period of 1923; deliveries amounted to 158,698,840 bushels as against 281,556,467.

Fire Damages Seminary

Loss To Quebec Institution Estimated At Half A Million Dollars

Three Rivers, Que.—Fire swept through the oldest wing of St. Joseph's seminary, destroying that section of the institution which was erected in 1870 and was one of the best known classical institutions in the province. No lives were lost, although several of those caught in the building were taken out with difficulty. The damage was estimated at half a million dollars and the fire was the most destructive to strike this city in the last 20 years. Numerous valuable documents and books were destroyed.

Leaving Diplomatic Service

U.S. Minister To Canada Has Tendered His Resignation

Washington.—William Phillips has resigned as minister to Canada. Mr. Phillips, who is one of the leading United States diplomats, plans to quit the diplomatic service probably late next month and settle with his family in New England.

President Hoover accepted the resignation with great reluctance, and sought to induce Mr. Phillips to remain in the public service. However, the Canadian ambassador explained that he desired to leave office after many years in order to rear his family in the United States.

Message From King George

Conveyed Sympathy To Widow Of Hon. J. A. Robb

Valley Field, Que.—The sympathy of His Majesty King George, was conveyed to the widow of Hon. J. A. Robb in a message received by Lord Willington, Governor-General of Canada and conveyed to Mrs. Robb.

"The King much regrets to hear of the death of the finance minister of the Dominion Government and asks that you will convey the expression of His Majesty's sympathy to Mrs. Robb."

Seeking New Air Record

John H. Mears Will Attempt To Beat Zeppelin's Time

Chicago.—John Henry Mears, of New York, speaking here announced plans for a new attempt at the record for circling the earth now held by the Graf Zeppelin. Mears and the late Charles Collier, held the world's circling record until the Graf's flight. The new trip will be started next June, Mears said. The Pacific hop is "to follow the path travelled by the Soviet fliers."

Stock Judging Competition

Winnipeg, Man.—Joseph Racine Radisson, is one of the six students chosen to represent the Manitoba Agricultural College in stock judging competitions at the Toronto Royal and Chicago International Water Fairs which will open respectively on November 19 and 30. Five men constitute a team. The others selected are: J. M. Bowman, Alexander, Man.; Morgan Brooks, Winnipeg; John Conner, Deloraine, Man.; Walter Fraizer, Beulah, Man.; and Earl Raamson, Wayne, Alta.

Russia's New Budget

Moscow.—Soviet Russia's budget for the coming year, details of which have been announced, shows the huge total of 11,390,000,000 roubles (about \$5,695,000,000) which is 45 per cent. more than last year, and the greatest in the history of the Soviet state. Large part of the state's revenue is expected to come from direct and indirect taxation. The sum of 345,000,000 roubles will be devoted to education, this being more than 60 per cent. above last year.

Premier Of Iraq Dead

Bagdad, Irak.—Sir Abdul Munim, premier of Irak, was found dead from bullet wounds recently. No explanation of the shooting has yet been made public.

Proposed Alaskan Highway

Representatives Of United States Confer With Premier King At Victoria

Victoria, B.C.—Appointment of a joint committee consisting of two United States and two Canadian representatives to thoroughly inquire into the proposed highway through British Columbia and the Yukon territory to Alaska, was mooted at a conference held here between Premier Mackenzie King, Premier S. F. Tolmie, and United States representatives, including Major Malcolm Elliott, president of the Alaska roads commission, and members of the Seattle Chamber of Commerce.

The need for a thorough investigation of all angles of the project was stressed, and it was felt that owing to the size of the undertaking, an international conference was necessary.

The proposal is for British Columbia to improve the present highway between Vancouver and Hazelton, carrying it on to the Yukon territory, for the Dominion to build it to the Alaskan boundary and the United States to take it from there to Fairbanks and thence to Valdez at sea level. Following the conference, Premier King intimated he would need further information before committing himself on the matter, but he would give it his fullest consideration.

A SHORT LINE FROM WINNIPEG TO HUDSON BAY

Ottawa, Ont.—The report of the engineers of the Canadian National Railways who have been surveying a short line from Winnipeg to Hudson Bay will be strongly in favor of the extension of the line now running north between Lakes Winnipeg and Manitoba to contact with the Hudson Bay Railway.

This information was received from Montreal recently. The report is not yet completed and will not reach the hands of Hon. C. A. Dunning, Minister of Railways and Canals, for several weeks.

The engineers, it is understood, will not only favor this extension to the north because it would clip hundreds of miles off the present rail distance between Winnipeg and Churchill, but they will point out another vital factor in Winnipeg's northern railway facilities. This factor will be the desirability of providing an air line from Winnipeg to the mining fields of Northern Manitoba.

The central line could be run northward in two ways. It could proceed along the shortest possible line to connect with the Hudson Bay road, which would carry it almost due north, or it could proceed north along the narrow strip of land between Lake Winnipegosis and Cedar Lake, finally to make contact with the Hudson Bay Railway about opposite the present branch line running to Ft. Flon and Sherritt, Gordon. This would give a short line to the bay and also an air line to the mineral developments.

The cost of extending the central road in either direction would be approximately \$8,000,000. It must be understood in regard to this report, that the Federal Government is not committed to build such a line of railway. This inquiry was made because the Manitoba members of parliament requested Mr. Dunning to assist them in this matter. Mr. Dunning agreed, on the express condition that it be understood that the government would not be committed to make any expenditures on construction.

LATE MINISTER OF FINANCE

Hon. James A. Robb, Minister of Finance in the Dominion Government, who died at Toronto, following a stroke of apoplexy. Mr. Robb was 70 years of age.

British Ambassador To Russia Appointed

Sir Edmund Hovey Has Been Transferred From Mexico

London, Eng.—Parliament having approved resumption of diplomatic relations with Russia, the government is losing no time in fully restoring the breach caused in 1927. The appointment of Sir Edmund Hovey as British ambassador to Russia has been announced. A Russian minister will simultaneously come to London.

Sir Edmund has been British ambassador to Mexico for the last four years. He became a diplomatic attaché in 1902, and was appointed to Stockholm in 1904. Shortly afterward he went to Tangier, and in 1906 to Paris.

Later Sir Edmund served in the British diplomatic service in Florida, Cuba, Jamaica, and Persia. Mexico City.—Official announcement was made here that John Edmund St. John De Bonnaire Mosen, has been named British ambassador to Mexico, succeeding Sir Edmund Hovey, who will become ambassador to Russia. The new ambassador has been in diplomatic service in Turkey, Japan, France, Persia and Colombia.

Apple Shortage In States

Forty-Five Million Bushels Below Average Is Reported

Washington, D.C.—The apple crop in the United States this year is short and the "apple a day" slogan may be suspended temporarily. Compared with that of last year, it is off 23 per cent. and 45,000,000 bushels below the average. Scab damage in the east and worm injury in the west have resulted in an inferior quality. Prices have already advanced and promise to be 25 per cent. above a year ago.

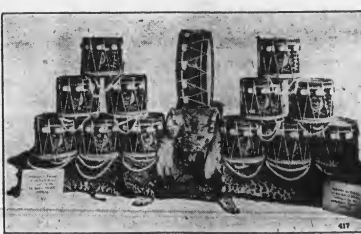

Gives Up Long Search

Seattle.—Refusing to believe that his wife, two little girls and his baby son from whom he was separated in the San Francisco earthquake, were dead, a Vancouver man has just ended his 23-year search here in despair. The story was unfolded when the modern Enoch Arden said that he had remarried after searching vainly for his wife and children along the Pacific coast.

First To Respond

Geneva.—Great Britain, the first country to answer, has accepted an invitation from the League of Nations to attend a conference for the establishing of an international tariff treaty. The United States and other non-members have been invited to participate.

Drums for Highlanders

This handsome set of drums has been presented to the 48th Highlanders Regiment, of Toronto, and is the gift of Lieutenant F. M. Ross. The regiment is allied with the famous "Glen Gordon" and upon its flags are described many battle honors, prominent among them being Ypres, Festubert, Somme 1918, Vimy Ridge, Hill 70, Amiens, Canal du Nord, etc. The regiment was organized in 1861.

The drums were made in London, England, and were shipped to this country by the Canadian Pacific Express Company on S.S. Duchess of York.

Advocates Free Trade With Great Britain

Proposed Resolution To Be Discussed At Coming Session Of Parliament

Ottawa.—Free trade with Great Britain within five years' time is aimed at in a proposed resolution placed on the order paper of the House of Commons by W. R. Faneush, Progressive, Last Mountain. The proposal, which will be discussed at the coming session of parliament, reads: "Whereas, Great Britain has for many years been Canada's best customer for agricultural products, particularly wheat and wheat products; and

"Whereas, the tariffs of other countries are recently manipulated detrimentally to the exporting of Canadian products, particularly those of agriculture; and

"Whereas, in international trade it is imperative for any country to buy as much as possible from the country to which she sells, thereby reducing transportation costs to the minimum; and

"Whereas, for the general good of Canada, we deem it advisable to foster trade with the Mother Country to the fullest extent, thus keeping trade within the Empire;

"Therefore, be it resolved, that in the opinion of this House that every handicap placed on the free operation of the British preference as contained in our draft schedule, be removed, and further, that the time has come when the British preference should be progressively increased so as to have free trade with the Mother Country within a period of seven years."

Protests Against Exclusion

Chinese Consul Would Like Discrimination Against Nationals Removed

Brookville, Ont.—A suggestion, that the present exclusion of Chinese immigration to Canada, was humiliating to Chinese national honor and that the act of 1923 should be amended to permit a small quota of Chinese immigrants to enter Canada annually or else to contract a gentleman's agreement with China, similar to that now in force in the case of Japan, was made before the Rotary Club, by the Chinese consul-general at Ottawa. He expressed a hope that the Dominion government would soon see its way clear to remove the present discrimination against Chinese nationals and predicted that with such restrictions removed, a tremendous impetus would be given the already increasing Canadian export trade with China.

BANKS TO TAKE ACTION TO EASE CREDIT SITUATION

Montreal.—Reassuring indication that in the opinion of the banks of Canada, deflation of stock values on the Canadian markets has reached its logical bottom and that the banks are prepared to step in to the breach in the interests of stabilization was forthcoming when the leading banks, acting together, announced here that they would accept a 15 per cent. loan to brokers on stocks sold over \$30, and 10 per share on issues below that price.

In taking this action to ease the credit position for the brokers the banks will be benefiting a large number of marginal clients, for brokers generally feel that this will enable them to reduce their marginal requirements and preclude the necessity in many cases of sending out further calls.

The moral effect of this construction action it is anticipated will be even greater in restoring confidence than the actual aid rendered, great as this will be.

Toronto.—Action of Canadian banks in reducing the required margin of safety for loans on stocks was interpreted here by leading brokers and stock exchange officials as a step to stem the present tide of pessimistic dump selling and to place the reassuring hand of high finance on the shoulders of the stock investing public.

E. Abbe, president of Toronto Stock Exchange, thought it "a helpful gesture by the bankers, likely to fulfill its apparent intention of inspiring confidence among the public and of having a general reassuring effect."

It will have no effect, however, local opinion felt, toward possible reduction of margin requirements asked of customers by brokers, and brokers will continue to ask the same margin percentage of clients as before.

ATTITUDE TAKEN AS TO ENTRY OF MENNONITES

Ottawa, Ont.—Widespread misinformation of what has occurred in regard to the proposed movement of 5,000 Mennonites from Russia to Canada, exists in Saskatchewan. Letters received at Ottawa from residents of that province, as well as the language used by various organizations in passing resolutions dealing with the question, indicate that the attitude of the Dominion Government in the matter has not been fully understood.

Hon. Robert Forke said that the Dominion would not put up a cent toward their passage money or their maintenance in Canada after arrival. Nor would he permit them to enter Canada, unless the Mennonites now in Canada guaranteed to keep them and to prevent them becoming public charges. Insofar as passage money is concerned, it is believed that Canadian Mennonites are prepared to put this up. If it is not put up and the Mennonites themselves have not got it, then they simply cannot come to Canada.

Berlin.—The Communist newspaper the "Red Flag" publishes a confidential letter written on Sept. 9 by Dr. Von Dirksen, German ambassador to Russia, to the foreign office at Berlin. It deals with the position of German settlers, mostly Mennonites, who settled in Russia but are now leaving the Soviet in large numbers and trying mostly to get to Canada.

According to the letter there is no prospect of the Soviet government abandoning its policy of socializing agriculture for the sake of a few hundred thousand German colonists, or for the sake of her relations with Germany. It is officially admitted the letter was stolen and an investigation has been started to discover how it came into the hands of the Communists, who are using it, of course, as derogatory to Russia.

Honor Manitoba Citizen

Bronze Portrait Of Late Hon. Thos. Johnson To Be Unveiled In Iceland

Winnipeg.—A bronze portrait of the late Hon. Thomas H. Johnson, former attorney-general of Manitoba, will be unveiled at the celebration next June, in Iceland, of the 1,000th anniversary of the "Althingi," the national parliament of that country. The portrait will be presented by the Manitoba government in recognition of Mr. Johnson's contribution to the progress and development made by the large Icelandic population of the province.

Police Holidays Are Cancelled

Toronto.—All holidays for members of the Toronto police force have been cancelled. Next June, in celebration of the city shortened and additional men placed on duty as a result of the series of hold-ups which have occurred here in the past week, and the solution of the crime wave is no nearer tonight.

Awarded Nobel Prize

Stockholm.—Professor Owen R. Richardson, of King's College, London, England, was awarded the 1928 Nobel prize in physics. He is a fellow of the Royal Society and is known for his research work in the theory of electrons. The 1928 physics prize was awarded to the Duc De Broglie, of Paris.

Keeping Highways Open

Brandon, Man.—The first start for the season to keep the highways in this district open for travelling was made by the provincial authorities last week when a new snowplow was sent to clean up the road between Souris and Boissevain.

Veteran Journalist Dies

Calgary.—One of the veteran journalists of Western Canada, W. Weaver Jones, for seventeen years on the editorial staff of the Calgary Herald, died at his home here, after a lengthy illness, at the age of 58. He came to Calgary from England.

Work Being Slowed Up

London.—Rt. Hon. A. V. Alexander, first lord of the admiralty, announced in the House of Commons that work on the naval base at Singapore will be slowed down as much as possible pending the result of the five-power naval conference.

Father Turgeon Is Dead

Vancouver.—Rev. Father Joseph Turgeon, 44, son of Senator O. Turgeon, of New Brunswick, and brother of Hon. Mr. Justice W. F. A. Turgeon, of the Saskatchewan court of appeal, died here following a lengthy illness.

NOTES AND COMMENTS

"Provincial Contest and Beer Plebiscite Probable Next Year," states a newspaper heading. The beer plebiscite, if taken, will be because of the agitation of the temperance forces in the province. When one considers the problems and the troubles of the "dry" days, and the difficulty the United States is experiencing in enforcing the liquor laws, he is rather inclined to say "let well enough alone" in regard to Alberta's liquor laws. It were better to have the business in the open than to drive it to cover and re-create the evils experienced in Prohibition days in the province.

There is always a phase of human nature which fanatics or extremists overlook. People can often be persuaded, whereas they will rebel against being driven. The temperance faddist would compel every person to think and act as he does. The average man will stick up for a measure of liberty, and defend his right to say if he shall have a glass of beer or a glass of lemonade.

"Bill" Chappell, genial sports enthusiast and booster-in-general for Blairmore, has been pouring forth newspaper correspondence during the past week in an effort to re-awaken interest in winter sports. He is an authority in matters of this nature and has everything worth while at his finger-tips when it comes to dealing with sports.

T. P. O'Connor, famous Irish Nationalist, whose death occurred this week, recently stated that the older he became the more convinced he was of there being a great deal of humbug in politics. Undoubtedly there is a great deal of facing both ways by men who are politicians and nothing else. 'Tis often too true that the man who would be an individualist in political life does not get very far, except he has sufficient power to overcome powerful influences by sheer ability which cannot be denied.

The whole-souled optimism of the man is reflected in a message he gave to youth on his 76th birthday. "Life is a great adventure—live every hour of it; don't be buried until you are dead." How cheerful this from a man who had already passed the three score and ten mark, and what a delightful contrast to those prophets of gloom who are downcast because they are a few dollars out on a year's business. Characters such as "Tay-Pay" leave their foot prints on the sands of time.

A boy in a local court, aged ten years, was being examined as to his knowledge of the difference between right and wrong. He was asked if he attended Sunday school, to which he replied that he used to go. Asked what he had learned there, he replied "Nothing!" The reason of the questions being put were because he was required to give evidence, and the judge wished to impress on him the importance of an oath. This lad had not received religious education, neither at home or in school, to enable him to appreciate the difference between the truth and a lie, except what the dictates of his own little conscience might prompt. It is a sad reflection on home life and in a measure our school life, that young minds are so sadly neglected. The question suggests itself, who is responsible if boys and girls stray from the path of truth and virtue?

It is a source of pleasure to know that the skating and curling rinks are to be re-opened. There is nothing that acts so much as a tonic to active people as exercise in the winter, when cold weather acts as a temptation to keep closely within the home. Skating for the younger folks and curling for the older provide healthy recreation which goes a long way towards keeping the mind and body healthy. The public should give all the support they can to the management who will this season operate the rink. Through their enterprise the fear of the rink remaining closed has been eliminated, and they are deserving of reciprocity in the matter of support.

The "talkies" have come to stay, and the Fox Film Corporation feels so sure about it that they have announced they will make no more silent pictures. One splendid feature is that musical accompaniments are in keeping with the subjects screened, so that one's nerves are not on edge as they were liable to be when in the silent pictures the music was so often out of harmony with the picture that one felt like tearing his hair. It is stated that the effect in London has been to re-create interest in the stage-plays, and that theatres and actors are coming back into their own, after a long period of eclipse by the movies. Coleman may now pride itself on the fact that we at least enjoy entertainment just as good as New York when it comes to the talkies.

When competition is clean and reasonable it is really a good thing for business, but the practise of price-cutting

or selling commodities at cost or less is suicidal. Why some people persist in this kind of a policy is past comprehension. Nothing is so easy as to cut prices; nothing is so hard as to get them back once they have been dragged down. --Ex.

Airplanes in Winter

Winter flying over the Rockies will in time become quite the usual thing. On Monday a large white plane was sighted going west, sailing smoothly while autoists were speculating as to the possibilities of

getting over the summit and around Crown Nest Lake, owing to a heavy fall of snow which has made auto travel a little difficult, on the less frequented sections of the highway.

Myrna the Exotic

Myrna Loy gives another of her exotic screen portrayals as the Spanish half caste girl in "The Great Divide," commencing this evening at the Palace theatre. 400 players are in the cast headed by Dorothy McNeill and Ian Keith.

"Disraeli" a Splendid Film

The film "Disraeli" shown at the Palace this week depicted a phase of English political life in an intensely interesting manner. The character of the famous Victorian statesman was splendidly portrayed by George Arlino, and those of the older people who saw and heard the talkie undoubtedly had their interest renewed in the life of Disraeli, of whom the late Count Bismarck said he was the ablest diplomat of those who assembled to arrange the terms of the treaty of Berlin following wars between Turkey and the Balkan States.

The scheming of Disraeli leading up to the purchase of shares in the Suez Canal held by the bankrupt Khedive of Egypt was dramatically screened, whereby Disraeli with the co-operation of the banking houses of Rothschild and Erlanger purchased the shares for England at a cost of nearly \$20,000,000, the transaction being subsequently ratified by Parliament.

Such pictures as this possess double value in that they furnish entertainment and education in historical events of importance in the Empire.

"Buck" Grant Keeping Cheerful

Mr. and Mrs. Grant came in from their home a short distance south of town on Saturday, to spend the day with Mr. and Mrs. Sisk, but the snow-storm at night prevented their leaving, so they spent the week-end with them, leaving for the ranch again on Tuesday. "Buck" Grant will be remembered as a player on the Eskimo hockey team of Edmonton, who also played baseball in the summer. In June of 1927 he was returning from a baseball game in Saskatoon when he was so badly injured in a car accident that his life was despaired of. However, he made a marvellous recovery, though his injuries left him paralyzed so that he has since been unable to follow any occupation. With his wife they have been making their home with Mrs. Grant's brother, W. Burke, at the ranch north of town, and "Buck" maintains a cheerful disposition and looks forward to the time when he will be able to resume work.

REAL BEQUEST

WOULD you pay approximately two per cent additional interest on your mortgage to secure a Free Deed of your farm for your wife or family at your death?

Two per cent on a mortgage of \$5,000 is \$100 a year; on \$10,000, \$200 a year.

For so small a sum you can bequeath your farm free of encumbrance to your wife, or your son, at your death.

Is your farm worth it? Is your wife worth it? Is your son worth it?

Consult a Sun Life representative about a mortgage policy. It will pay off the mortgage and keep your farm in the family.

WORLD HAPPENINGS BRIEFLY TOLD

Russia, which led the world in wheat exports, before the war, now does not produce what it consumes.

Winston Churchill, former chancellor of the exchequer, has been elected lord rector of Edinburgh University.

Thos. Mann, widely known German novelist, whose best-known work is "The Magic Mountain," has been awarded this year's Nobel prize for literature.

The Austrian government will shortly appoint a consul-general at Ottawa, Hon. P. C. Larkin, Canadian High Commissioner, was informed by the Austrian minister in London, Baron George Frankenstein.

It is reported that a sheep rancher in Nebraska has bought eighteen sections of land at Finnigan, Alberta, along the river, upon which he intends to set out a flock of sheep numbering about 20,000 next spring.

Semyon A. Shestakov, chief pilot of the Russian plane "Land of the Soviet," which flew from Moscow to New York, announced the Odovskikh, Soviet Aviation Society, had refused to endorse his proposal to fly across the Atlantic ocean on the homeward trip.

Seized and condemned for illegal fishing in Canadian territorial waters on August 2 last, the United States fishing boat "Olympus" has been reserved for the use of the biological board of Canada, and will be stationed at Departure Bay, B.C., it was announced by H. W. Goggin, marshal in the Victoria admiralty district.

The former Kaiser from his exile at Doorn, has instituted a libel suit against the editor of a Berlin newspaper. The newspaper had said that the army was supplied exclusively with Krupp guns, greatly inferior to those of other firms, because the Kaiser was financially interested in the former Krupp works.

For Automobile Protection

Ohio Patenting Inmate Patents New Safety Device

An invention by an Ohio patenting prisoner may make automobile theft more difficult than it is at present.

Lawton Hillemann, 22, of Akron, serving a sentence of from seven to 15 years for burglary, has filed with a patent attorney an application for a patent on his dual auto control ignition.

When the motor is stopped, it automatically locks the ignition, steering wheel and starting switch. The mechanism can be enclosed in a box six inches square and four inches high and mounted beneath the dash board.

Started In Small Way Adolph Gobel, millionaire frankfurter, laid the foundation of his fortune in a little sausage-shop in Brooklyn, near a public school. He fostered a taste among the children for piping hot "pups." The rage spread to adjacent seats of learning. So far into the moneyed row did Herr Gobel travel that his son can afford to play around the waters of New York with a luxurious yacht.

Lemonade was invented in the seventeenth century.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 60 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

Swine Judging Competition

Sponsored By Agricultural Department Of The Canadian National Railways Robert Hornby and Joe McCollum, young farmers of Armstrong, will represent British Columbia in the Dominion Championship swine judging competition to be held under the auspices of the Agricultural Department of the Canadian National Railways, at the Royal Winter Fair, in Toronto, early in December.

They earned this honor by being awarded the Provincial Championship in the tests among the Canadian National Boys and Girls Swine Clubs of British Columbia. In the finals at Toronto, they will compete with teams from every other Province in Canada, the largest entry since the competition was inaugurated in 1925. Should they win, they will be presented with medals and will become the holders for one year of the trophy awarded by W. D. Robb, vice-president of the Canadian National Railways, and they will have the distinction of being the champion swine breeders and judges of Canada.

The Boys and Girls Swine Clubs were started in 1925, by W. D. Robb, and Dr. W. J. Black, Director of Colonization and Agriculture for the purpose of encouraging mixed farming and improving the quality of swine. All boys and girls under twenty are eligible to form clubs, and the movement has grown from six clubs in the first year, to more than two hundred. Every province is now represented and the competitions can be regarded as truly Dominion-wide.

District competitions are held first and the district winners compete in a Provincial Championship test, and the winners of the latter competition are given a free trip to the Royal Winter Fair at Toronto, and a chance to compete for the Dominion title. So far, Ontario, Manitoba, and Saskatchewan have won the Robb Trophy, one team being two girls.

Recipes For This Week

(By Betty Barclay)

MARMALADE GRIDDLE CAKES (About 18 cakes)

- 2 cups flour.
- 1 tablespoon baking powder.
- 1 teaspoon salt.
- 3 tablespoons sugar.
- 1 egg.
- 1½ cups milk.
- 3 tablespoons melted butter.
- Orange marmalade.
- Extra sugar.

Mix and sift dry ingredients. Add beaten eggs and milk. Beat thoroughly and add butter. Drop by large spoonfuls on a hot greased griddle. When puffed, fold of bubbles and cooked around the edges turn and cook on the other side. Spread cakes with orange marmalade. Roll up like jelly rolls. Sprinkle with sugar and serve at once.

VANILLA RICE PUDDING

- 1 package vanilla junket.
- ½ cup maple sugar.
- 1 pint milk.
- 1 cup boiled rice.

Place rice in bottom of desert glass. Sprinkle with maple sugar. Dissolve junket in lukewarm milk, and pour over rice. Let stand in a warm room until firm, then chill. Any left-overs of cereal, etc., may be used instead of the rice.

French Children Play At Aviation

Aviation has become so popular in France that children are having ground races in miniature airplanes, mounted on three wheels. At Baule, the popular bathing beach, many contests are being held on the sands. One of the planes was labelled "Paris-New York."

Great Britain spends more than \$200,000,000 a year on motor cars.

Gas Supply For Saskatchewan

Eagle Butte Oil Company, At Cypress Hills, May Solve Problem

The prospect of a natural gas supply for the cities of Regina and Moose Jaw and for towns and villages extending westward as far as Maple Creek, which has been brought measurably closer with the announced intention of the Eagle Butte Oil Company to spud in a second well in the centre of the Cypress Hills gas field, about 290 miles west of Regina and close to the Alberta boundary line.

The development of the Cypress Hills gas field is being proceeded with in anticipation of marketing gas in Saskatchewan. According to the findings of government engineers it is believed that the Cypress Hills field offers the closest supply of gas which can be transported to this market. A pipe line from the Cypress Hills would reach the town of Maple Creek first, and then proceed to Moose Jaw and Regina, supplying all towns and cities along intervening route.

The whole problem has been carefully examined by competent engineers and has been pronounced feasible. Independent engineers who have been retained by the City of Regina, after an exhaustive examination of all possible sources of supply, pronounce the operations of the Eagle Butte Oil Company, Limited, as the most likely to result in the development of an adequate supply of gas for the Saskatchewan market.—Free Press.

Flying Taxi Service Planned In England

Planes Being Constructed For Shilling-Mile Fleet

The first effort on a large scale to let loose a fleet of "flying taxicabs" or "air taxis" in England is announced. It is learned that 100 Desoutter-Cirrus sports coupe planes are now under construction at Croydon, the London airport, and that all are intended for taxi service as soon as they are completed.

The planes will be stationed at provincial cities and will be made available for rapid connection with the Continental air routes from London, or for transport between English cities and towns.

It is planned to run the planes at the passenger rate of one shilling (about 25 cents) a mile. The planes are all three or four seaters, with inclosed cabins.

Another interesting announcement concerning air travel came from the French Air Union, which said that its de Luxe London-Paris planes henceforth would make connections with the French air lines to North Africa. The new service brings Algiers within thirty hours of London.

Flew 11,500 Hours

Excellent Work Accomplished By Ontario Protective Air Patrol

To protect the forests of Ontario, one of the province's most valuable assets, the Ontario Government protective air patrol has this year flown 850,000 air miles or a total of 11,500 flying hours. This is 5,400 more hours than the total in 1929, and was done without injury to a single member of the personnel engaged or to any of the passengers carried in the planes. The forest patrol service covered the vast area of Northern Ontario, from Lake Superior to James Bay, and has many notable exploits to its credit in carrying relief to stranded expeditions and conveying injured or sick persons from outlying posts to hospitals.

Our Embattled Farmers

Through Organization Are Defying the Wheat Buyers of the Whole World

The embattled farmers of the western Canada wheat pool are defying the wheat buyers of the world markets. Millions of bushels for profit but not a cent for loss! If our Farm Board had more courage in every respect, the American farmers would also be in the defence and in the money a little later. It is a refreshing spectacle to see a hundred thousand farmers, secure in their technical market position, calmly waiting for their turn to play.—Wall Street Magazine.

New Sound Film Apparatus

Two young Norwegians have invented a new sound film apparatus which they say will cost one-fifth of that of imported machines, and equal the foreign product in every respect. A machine for the production of sound film has also been invented by them, and they are preparing to film reviews.

There are 3,424 spoken languages in the world.

2993

(By Annabelle Worthington)

A gracious new model with animated hemline achieved through interesting circular fulness with dipping lengths at either side of front and back.

The simple bodice with jabot collar is flattering fashion. Sleeves give darts below elbows. The belt indicates raised waistline, that dates the newness of your frock.

It is an exact copy of the Paris model as interpreted in printed transparent velvet in partridge brown coloring, becoming to most women, and so entirely wearable.

Don't hesitate! It's yours for just the cost of the fabric and a few hours of your time.

Style No. 2993 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It expresses simple elegance in plain transparent velvet in Royal blue with sapphire crystal buckle fastening belt.

Marron Glace crepe satin with the jabot collar made of the dull surface, black sheer velvet, the jabot collar of deep ecru lace, canton crepe in bottle green and army blue crepe de chine are outstandingly smart.

Pattern price 25 cents. Be sure to fill in size of pattern. Address: Pattern Department, The New Fall and Winter Fashion Magazine is 15 cents but only 10 cents when ordered with a pattern.

SUNDAY SCHOOL LESSON

NOVEMBER 24

THE HIGHER PATRIOTISM

Golden Text: "He made of one every nation of men to dwell on all the face of the earth"—Acts 17:26. Lesson: The Book of Jonah. Devotional Reading: Isaiah 55:1-7.

Explanations and Comments

A Great Command Disobeyed and Punished. 1.1 to 2.10.—The word of Jehovah came unto Jonah, the son of Amittai, telling him that he ought to go to Nineveh, that great city, and cry against it. Nineveh, the capital of Assyria, was on the Tigris River, 600 miles from the Gulf of Persia.

"The word of Jehovah came unto Jonah. How was there a message from the sky? As he walked, or slept, or prayed, did these words shape themselves from silence into speech? Arguing heard a voice under the fig-tree, at Milan; Joan of Arc heard voices in the forest of Domremy. We, indeed, have heard no voices. But all of us together have not compassed the boundaries of human experience. It is a wise, essentially in these days of wonder in which it is our privilege to live, to deny the possibility of anything. What is impossible."

"This, however, is true, that the word of the Lord which came to Jonah has come also to a great many other people besides Jonah. God is all the time speaking to men. Messages from on high have to all ages and in all places been received by men. Whenever we are conscious of an urgent voice which says to us, over and over, 'You ought! You ought!' it is likely that we are listening to the word of the Lord."

Jonah disobeyed the voice. "Jonah says to himself: 'The first time, I knew how I'll be. After that I've cried myself hoarse that Nineveh is to be destroyed, they'll begin to weep, and the Almighty'll change His mind and not destroy them at all.' He says His way is folk repent. He's of great kindness and slow to anger, but He should keep His word. He taken no thought upon me, and what a fool like I make of myself, crying that folk'll be destroyed when they willna be. It seems as though the Almighty'dna ken His sin position to gang back on His word because folk commence to weep. But I'm His servant, and I ken my ain place; I'll no see Him place Himself in a wrong position, and I'll no see Him place me in another."—Sandy Scott's Bible Class.

Instead of obeying the voice, Jonah went in the opposite direction, the story tells us. At Joppa he found a ship bound for Tarshish (the Phoenician colony on the southwest coast of Spain, then regarded as the very end of the earth), and went aboard.

God sent a violent storm; the sailors concluded that someone had offended his god, and they cast lots to discover the culprit. The lot fell upon Jonah, who acknowledged his guilt and advised them to throw him into the sea. Finding the effort to row back to land unavailing, the sailors prayed to Jehovah and then reluctantly cast him overboard. The sea ceased from its raging and the sailors offered sacrifice to Jehovah. A great storm of rain came and after three days cast him upon dry land.

A Thing Of The Past

Senator Buchanan Says West Does Not Need Harvesters Excursions Senator W. A. Buchanan, of Lethbridge, Alberta, has declared the arrival of a new era in the agricultural activities of the West. Harvesters' excursions, he says, are a thing of the past. Tractors and other such labor-saving devices are making the Western farmer independent of the extra help he has always needed when his grain is ready for cutting.

Though this may mean the loss to some men in the East of a few weeks of work in the year, the cessation of these trips is not entirely to be regretted. They had several features which made them somewhat undesirable. In the first place, many of the men who went West did so, not to work in the harvest, but to seek their fortune in Western cities, and the result was that the West suffered each year through an influx of unemployed. Even of those who did go on the farms, many remained on the prairies after their work was done, and added to the overcrowded condition of the cities.

There is another encouraging feature revealed in the senator's remark. The West is coming into her own. Rich in natural resources, she has been man-power. The fact that there is no longer much need for the extra workers shows that she is becoming independent, that she is gathering unto herself a farming population sufficient to carry on.

On the whole, few will regret to see the passing of the excursions.

Centrally Located In a new settlement near Duisberg, in Germany, although there are 442 houses, there is only one chimney. All the houses are supplied with heat and hot water from one house, which occupies the middle of the settlement and all cooking is done by gas. Lighting is electric.

Boredom is now regarded as being as detrimental to results in factories and workshops as is fatigue.

Wedding rings were made of agate and iron in ancient Roman times.

World Grain Exhibition

Event To Be Staged In Regina Expected To Be Largest Of Its Kind Ever Held

Official invitations are being sent by the Canadian Government to many countries to attend the World's Grain Exhibition and Conference to be held in Regina, in August, 1932. This exhibition promises to be the largest of its kind ever held. About \$250,000 is to be offered in prize money.

Classes for wheat, oats, barley, rye and other grain and seeds will cover the world for prizes offered for these classes run from \$500 to \$15,000. For example, hard red spring, hard red winter, soft red winter, and white wheat are in the \$15,000 prize class as is also the class for white, medium or late oats. First prizes run as high as \$2,500, and there are from twenty-six to fifty prizes to a class.

The Conference to be held at the same time as the exhibition, will, it is expected, attract the world's greatest experts on agronomy, entomology, farm machinery, etc., who will make some very definite contribution to world knowledge on these important subjects.

Regina, where this promising attraction is to be held, is a very modern city of about 55,000 population, the capital of the province of Saskatchewan and situated in the centre of the greatest grain growing area in the world.

Old Family Album

Photographers Say This Relic Of Former Days Is Coming Back

The old family album, which furnishes the "moderns" with gleeful moments over the appearance of ancestors, is coming back—perhaps to do the same for future generations.

Photographers, meeting in convention here recently, declared bobbed hair and modern styles for women have restored the popularity of photographs, and hence the album is returning. One photographer pointed out that the American public spent \$38,000,000 more on photographs last year than in any year previous. Women's styles make them appear younger, he said, and they want a picture record.

The Turk's Clock

Watches and clocks are rare in some parts of Turkey, but the natives have some ingenious modes of telling the time. One is by observing the eyes of a cat. Early in the morning and evening the pupils are round. At certain hours they are oval; at noon they are but a narrow slit.

The Canadian National Exhibition held at Toronto, Ontario, is now in its 51st year. The value of land and buildings connected with the exhibition is \$25,000,000.

The Singing Fool

By HUBERT DAIL
Copyright, 1925, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend. She and Perry take the child which Al adores and sail for France. Al, completely broken in heart, disappears from Broadway and becomes a delinquent. One day, as he wanders down a back street, he sees Grace Farrell on the opposite corner. He runs away and Grace hastens to Blackie Joe's club to tell him the news.

CHAPTER XXII

"I just saw someone we both know," Grace began, with a tired, rather set little smile. "Al Stone."

"No?" Blackie put down his cigar. "Where?"

Briefly Grace related the circumstances of their encounter.

Farmers tell WHY they Clip Cows

A CERTAIN farmer wanted to know the facts about clipping cows, so he wrote us for names of those owning clipping machines.

He wrote them:

"How he himself is so pleased with the Stewart Clipping Machine he sent us the letters which made him decide the clipping machine is a good investment.

Here are some of them:

"I have been shipping to Boston's Milk Plant regularly for 7 years and during that time I have never had a can of milk returned. It gets cleaner milk and find my cows easier to keep clean so if for that alone I would say a clipping machine is a good investment."

"I always clip mine in the fall. Some half up and others that are inclined to be woolly I clip them all over, as I find they do better and much easier to keep clean, and it sure does reduce the bacteria count and I am sure we get more milk as well. I always get Score 1. I would not be without a clipping machine under any consideration."

"We have had a power clipper for years and would do without one. It is a great help. The milk is easier to keep clean and pure. Keeping down lice sure will produce more milk."

HOW TO CLIP COWS

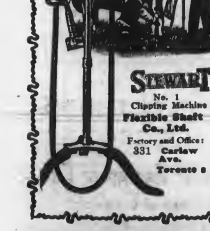

Measure the principal source of bacteria, namely, the udder and milking time rub off into the pail. Hair on udders, underlines, flanks and tail is kept clipped short all winter.

Learn some to congregate along the spine, which explains why some farmers clip a six-inch width from tail to ears.

Farmers who have warm stables and drinking water inside, usually clip their cows all winter.

Buy a clipping machine and make more money from your cows—with less work. Stewart No. 1 Clipping Machine is easy to use and anyone can do a nice job of clipping with it. Strong, sturdy, easy-running and will last for years.

At your dealer, \$15.00. Satisfaction or money refunded.

treme cruelty and desertion. It is understood that Mr. Stone, whose whereabouts are unknown, will not fight the case.

"Among the gossips of the boulevard it is said that as soon as Mrs. Stone's divorce is granted, she will marry John Perry, well known boozier of Broadway. The couple are seen to get a great deal at the Riviera resort, where Mrs. Stone's beauty and chic attire have attracted a great deal of favorable attention. On the beach she is frequently accompanied by her baby son, Junior Stone.

"Meanwhile, Al Stone's old friends from Broadway are wondering what has become of the former successful song writer. At one time it was said that he, too, had come to France, but this was denied by those in the know."

Al had dropped the paper with a bitter smile. So Molly was charging him with cruelty and desertion! The terrible irony of the accusations dazed him for a moment. And Molly was preparing to marry Perry!

Oh, well, it didn't matter; nothing mattered any more! Let her make any charges she wished to get her freedom. Yet the picture of Junior, on the Riviera beach with his mother, remained with Al for a few days. He wondered if Junior still chattered and laughed as he had in the days and whether he remembered his daddy?

Al looked down at his shabby clothes. He certainly wouldn't want Junior to see him as he appeared now—the personification of failure. No, Junior must never know what had become of his daddy. Al's pride was strong enough for him to make that decision.

After that Al still studied the newspapers for other items concerning his family, but nothing else appeared. Nor did Molly send any letters. Al had left word that his mail was to be forwarded care of an obscure East Side bank, where he had placed his money. But every time he called at the bank for additional money, and asked for letters, he found none from Molly. Letters from Marcus and all his old Broadway friends drifted in, but these he quickly tore up without opening them.

Recently he had ceased to read the papers or to ask for letters. His interest in life was ebbing, and he was sinking down to the smallest circle. Even this interest was passive rather than active—he did not really care about sleeping, dressing, eating, wandering through the streets. It was done simply through habit—his last hold on life.

If that passed from him one of these days it meant dark oblivion for the man who had once been light-hearted Al Stone.

Seeing Grace on the street had proved a terribly disturbing shock to him. In running away he had followed his first impulse, but afterward his conscience had bothered him. He knew Grace's feelings would be hurt. After all, Grace had been one of his best pals back in the old days at Blackie Joe's. He remembered her as the last looked thing—a startled fawn of a child. She had certainly developed into a stunning girl.

(To Be Continued)

A Wallied Arabian City

Sanza, a town in the desert of Southwest Arabia, is surrounded by a thick wall of rubble and mud, some four miles about, with four principal gates and many towers mostly in ruins. Within this storied Arabian city are forty-eight mosques. In the neighborhood of the Grand Mosque, are the lapidaries who cut the beautiful Yemen stones of quartz and chrysochryse known to the outside world.

Furnace Terrified Eskimo

Could Not Understand How the Heat Was Made

May Lee Davis, writing in North American Review, says: Eskimo Muk-pli had come to pay her first social call on me in that far Alaskan home I knew so many years ago.

"How come?" queried Muk-pli, muzzling close to the register and pointing to the black grated hole in the floor. "How come hot? No see him fire. How come, please?"

Now I felt that the complex magic of that hot furnace could be better shown than explained, so we descended to our small cellar where an empty crude oil drum had been converted into a miniature furnace. In the dim light and the dented glow from the open draft, shadows flickered and the white asbestos-wrapped pipes, reaching out under the floor to our four small rooms above, stretched aloft in eerie gesture. The little woman caught at my hand in terror.

"Very big devil, him," she whispered. "How you talk him devil? How you make him breath hot?"

"You talk about 30 words of wood to him, a winter! He's a hungry thing, but a good little devil." I laughed, reaching up and patting one of the twisted white arms. "See Muk-pli, good devil. If you feed him plenty wood, he makes plenty of hot breath upstairs. Warm your feet, good and plenty, upstairs."

But she was still clutching tightly to my hand as we went up the short steps.

NERVES WERE BAD

Could Not Sleep Tired All Day Long

Miss Florence Coutler, Bark Lake, Ont., writes: "I was troubled with my nerves, could not sleep at night, and felt tired all day long."

"A neighbor told me to see me, one morning, and advised me to take

"The first box did me good and after the sixth box I was able to go back to my work."

"I went to all at all druggists and dealers, or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont."

The Experience Of Many

People Are Constantly Echoing Words Of Swedish Laurels

She was a humble Swedish laundress in the home of a Wall Street broker and she had the usual nest egg of "life savings." Exactly how she learned to understand the financial page has not been revealed—but in she went. In the course of time, the life savings mounted to the tidy sum of \$35,000 and she had visions of Sweden and luxury. But they never took when to stop. Ultimately, certain motor stocks slid sweetly down hill and took the \$35,000 with them.

That however, is not the high point of the story, which is far from being an uncommon one. What really makes it worth relating is the little gem of philosophy with which she closed the incident and which shall be quoted in her own words:

"It come so slow; it go so quick."

Manitoba Fisheries

The Manitoba Co-operative Fisheries, Ltd., an organization of 400 fishermen, on Lake Winnipeg, began operation on September 1, 1928. In the first season's operations which ended on April 30, 1929, this new co-operative organization handled 4,000 pounds of fish, out of a total catch of 14,500 pounds in Lake Winnipeg.

"For a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children."

Two hundred silver foxes, valued at \$70,000 were recently shipped from Prince Edward Island fox ranches, the chief center of the fox farming industry in Canada, to Sweden.

Use Minard's Liniment in the Stables.

Englishman Invents

New Dance Floor

Savoy Hotel, London, England, Has Only One Of Its Kind In World

A dance floor that rises up to the level of the tops of the tables—at the touch of a button—was "opened" during the dinner and supper entertainments at the Savoy Hotel, London, England. It is said to be the only floor of its kind in the world. Measuring 44 feet by 25 feet, it rises without a creak in 30 seconds by means of hydraulic power. Thousands of gallons of water from the four artesian wells below the Savoy are used.

An official of the hotel says: "The inventor is an Englishman, W. J. Huggett, and he and our chief engineer, F. C. Pay, have been working on it for six months. It has cost over \$50,000, and has been constructed between 2 a.m. and 10 a.m., so as not to interfere with our guests' comfort. This enables all guests to see the cabaret without standing."

WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—coughing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the house always feel safe. In fact they are like having a doctor in the house. They are gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to do no drug at all harmful to even the youngest babe. They cannot possibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Has Interesting History

Small Cinema Was Built For Use Of Royal Family

Across the way from the Royal riding school in the labyrinth of streets between Buckingham Palace and Victoria Station is a small and comparatively new cinema with an interesting history. It was built by Mr. E. C. Lancelotti, a cousin of Lord Lancelotti, for the use of members of the Royal Family. The cinema is on the site of an old ecclesiastical building, and construction of a subterranean passage was commenced so that the cinema would be directly accessible from Buckingham Palace, but that idea was abandoned.

The first author to use a typewriter in the preparation of manuscript is believed to have been Mark Twain.

Miller's Worm Powders work so effectively that the traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action.

The value of pearl shell raised during ten years off the northwestern shore of Australia was more than \$10,500,000.

Little Helps For This Week

"Blessed is the man whom Thou chastenest, O Lord, and teachest him out of Thy law."—Psalm xciv, 12.

Do not cheat thy heart, and tell her. "Grief will pass away; Hope for fairer things tomorrow, And forget today." Tell her that you will, that sorrow, Need not come in vain; Tell her that the lesson taught her Far outweighs the pain.

—Adelaide Anne Proctor.

It would be a poor result of all our anguish and our wrestling, if we won nothing but our old selves at the end of it; if we could return to the same hilly loves, the same self-confident blame, the same light thoughts of human suffering, the same frivolous gospel over blighted human lives, the same feeble sense of the Unknown toward which we have sent forth irrepressible cries in our loneliness. Let us rather be thankful that our sorrow lives in us as an indestructible force, only changing its form as forces do, and passing from pain into sympathy.—George Eliot.

An Owl That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is an arid enough to attest its excellence, for in all these countries it is on sale and in demand.

Newest Use For Airplane

Traced Blackmailer By Following Carrier Pigeon He Sent Out

Aerial photography recently thwarted an attempt at blackmail, in Germany. A wealthy man received a package containing a carrier pigeon and a letter, which stated that if he did not forward a large sum of money by the pigeon within a given time, he would meet violent death. The pigeon was released and followed by an airplane, and an aerial photograph taken of the place where the bird landed. The house of the offender was easily identified. He was an unemployed miner, from one of the intended victim's mines.

Abbreviation Simpler

"S.U.P. 36" or para-benzyl-para-amino-benzoyl-amino naphthol 3,6-sodium sulphate is the latest treatment for influenza, described by Dr. Raymond M. Pearce, in the British Medical Journal.

An Ailing CHILD

Are you prepared to render first aid and quick comfort to the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it. It's harmless, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay an irritable condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It's just as

harmless as the recipe on the wrapper reads. If you see Castoria, Fleischer's signature, it's genuine Castoria. It is harmless to the smallest infant; doctors will tell you so. You can see the recipe on the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.

Scout News

The Scouts were given physical exercise instruction last evening by Mr. Harold Turner, which will be a regular feature of the weekly meetings, and whose interest is highly appreciated by the officers and Scouts.

A program of winter activities will be arranged at the next meeting. The regular meeting night is on Wednesday from 7 till 9.

Rod & Gun Club Smoker

The Coleman Rod & Gun Club will hold a smoker in the Oddfellows hall on Fri., Nov. 22, commencing at 8 p.m. Presentation of prizes. Admission 50c. Members and friends invited.

Woes of Newlyweds Arise From "Twin Beds"

Jack Mulhall and Patsy Ruth Miller are the bridegroom and bride in "Twin Beds," the hilarious First National-Vitaphone comedy which comes to the Palace theatre on Mon., Tues. and Wed. of next week. Mulhall is starred in this screen version of the famous stage farce by Margaret Mayo and Salisbury Field, and Miss Miller is the petite and charming bride who is separated from her husband on their wedding night. "Twin Beds," which was directed by Alfred Santell, is an all-comedy screen offering with an all-comedy cast. It is built for laughing purposes only and promises to usher in Fun Week at the Palace with great eclat.

Mrs. Fraser left on Wednesday to spend the winter with Mr. and Mrs. Sam Wilson at Kellogg, Idaho.

Dishes in profusion—see advt in this issue and the fine display at Coleman Hardware Co.

Wm. Smith was sentenced yesterday at Blairmore by Judge McDonald to three years in Prince Albert penitentiary.

Mrs. H. Snowden, Miss Nettie Gillespie, Joe Fauville and John McCartney were prize winners at the K. P. whist drive and social on Saturday.

Last Thursday evening Minerva Chapter O. E. S. was favored by the presence of a number of visitors from the Pass towns and Pincher Creek, when a social hour was spent following the regular meeting of the chapter.

Arthur O'Neil, formerly salesman for Coleman Garage, and later Red Trail Motors, Blairmore, has taken a position in the goods furnishing department of Trites Wood, Michel. Mrs. O'Neil and children will move when accommodation has been obtained.

Mr. Melville Anderson, of Anderson & McLean, sight specialists, of Calgary, announced next visit to G. R. Powell's, Coleman, Monday, Nov. 25th. 20 years experience in regular visits assure you of satisfaction in all optical work.

A Romany stroller and several little strollers for the week or two rented the old New York Cafe. A banner on the window invited the public to come in and have your head read. Evidently the denizens of Coleman were not very anxious to have their heads read, quite content with what knowledge they might have or surmise of the mystic future. So, early on Tuesday morning it was noticed that the gaudy banner had been removed, and the tenants had decided to stroll on a little further. It must have been terribly hard pickings.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C.

Mrs. Dewar and Mrs. Pattinson visited friends at Bellevue on Tuesday.

The Salvation Army has again started in Vegreville, this time with two young men to look after its fortunes. Lieut. Meakings, formerly of Coleman, and Lieut. Hames, formerly of Macleod, are the new men—Vegreville Observer.

Skates and hockey boots are being sold out at bargain prices at Coleman Hardware Co.'s stores at Coleman and Blairmore. Watch for grand Christmas display at our stores.

A number of eager and interested children were taken to Blairmore yesterday by the Rev. A. D. Currie and Mr. and Mrs. Fred Antrobus to take part in the annual recital of Miss Chardon's piano forte classes and Mr. Moser's violin pupils, which always prove an event of considerable interest in musical circles.

For some months the British pound sterling has been increasing until it has reached 15c above par value of \$4.86. To buy a pound now in Canada you must pay \$5.01.

The Journal received this week a postcard from St. Ve Leosky, from Prague the capital of Czechoslovakia, where he had been spending a few days. The card bore a fine photograph of one of Prague's principal avenues, showing several fine buildings and monuments, and street cars and automobiles and other vehicular traffic thronging the city.
